I. Mission

1. To arouse the students’ interest in studying Geography.
2. To develop students’ power in identifying and deriving information from maps, pictures, photographs and statistical tables.
3. To enable students to apply geographical concepts and ideas to show an understanding of problems on a variety of scales.
4. To enable students to identify issues and suggest solutions to problems.
5. To develop students’ value judgment from different points of view.
6. To enable students’ appreciation on the natural environment.

II. Objectives

1. Form 1 to Form 3
   (a) at least 60% of the students in each form pass in the Geography examination
   (b) Map-reading skills
       F.1 - to be able to use maps to locate features
       - to be able to use scales and direction
       F.2 - to be able to draw cross-section and identify the types of slope
       F.3 - to be able to draw cross-section, identify different types of slope and relief features, to calculate gradient and to use scales and direction
   (c) to identify and derive information from maps, pictures, photographs and statistical tables

2. F.4 to U6
   (a) At least 70% of the F.5 students pass in the H.K.C.E.E.
   (b) At least 80% of the Upper 6 students pass in the H.K.A.L.
   (c) To apply geographical concepts and ideas to show an understanding of problems on a variety of scales.
   (d) To interpret diagrams, maps, photos and statistical data.
   (e) To develop comprehension, application, analysis and synthesis power.
   (f) To develop value judgment.
   (g) To encourage them to read more reference books.

III. Panel works

1. A record of the following items has been kept by the department for the access of all geography teachers:
(a) teaching plans of all forms  
(b) an AV catalogue including photos, aerial photos, slides, VCD and video tapes  
(c) maps of different scales and regions  
(d) wall maps of different continents and Hong Kong  
(e) colour transparencies of different landscapes  
(f) geography reference books  
(g) maps of HKCEE and HKAL  
(h) newspaper clippings (filed in classified topics)  
(i) self-designed teaching packages (filed in classified topics for different forms)  
(j) past papers of H.K.C.E.E. and H.K.A.L. with marking schemes (filed in classified topics)  
(k) practical and map-reading past questions of H.K.C.E.E. and H.K.A.L. (filed in classified topics)  
(l) Geography equipment list  
(m) Data bank resources  

2. Teachers of geography department are highly co-operative. Teachers share the work on writing teaching plans, note preparation, exercise setting, test setting, field work design, project design and teaching package design.  

3. Teachers always share their experience and strategies in teaching and class management.  

IV. Implementation plan  

A. Form 1 to Form 3  
1. Group preparation of teaching strategy for each double Geography lesson will be carried out next year.  
2. The revised teaching plan for each chapter of each form will have been ready by the first staff meeting of the academic year 2004/05.  
3. Issue-based teaching activities are designed. This includes group discussion, role-play and activities.  
4. More practice on map reading skills will be assigned.  
5. Assignments  
   (a) Three map reading exercises will be done each term.  
   (b) At least one exercise for each chapter will be done.  
6. Quiz and test  
   One quiz will be given after a chapter has been completed.
7. **Project**

<table>
<thead>
<tr>
<th>Form</th>
<th>Topic</th>
<th>Time</th>
</tr>
</thead>
<tbody>
<tr>
<td>One</td>
<td>Map design</td>
<td>1\textsuperscript{st} term</td>
</tr>
<tr>
<td>Two</td>
<td>Report on flooding, landslide, earthquake and desertification.</td>
<td>1\textsuperscript{st} and 2\textsuperscript{nd} term</td>
</tr>
<tr>
<td>Three</td>
<td>Contour box</td>
<td>1\textsuperscript{st} term</td>
</tr>
</tbody>
</table>

**B. Form 4 to 5**

1. There will be more practice on answering skills, so at least one data-based exercise will be given to students after a topic is covered.
2. A geography study guide will be designed for them.
3. Field study
   - F.4 - river study
   - F.5 - Urban renewal
   The field study helps students identify the physical features. More importantly, the students have to do a worksheet on site so as to enhance them to investigate the conditions in a special environment favouring the development of the feature. Students are required to submit the worksheet after the field study.
4. Two quizzes and one test for each chapter will be given to students.
5. Past paper analysis will be discussed with the Form five students in March.
6. A map reading exercise will be done every cycle in Form 4.
7. F.4 students will do newspaper cuttings on specified topics and a summary will be submitted every month.

**C. Form 6 and 7**

1. Teachers will put more stress on answering skills by giving more explanations on the contextual theme and discussion on the questions.
2. Students will be asked to do a 10-minute fact-recalling quiz every Geography lesson so as to enhance them to write a long essay. At least one data-based exercise will be given to students after one topic is completed. Past paper questions will be done throughout the course.
3. Students are required to write at least 5 essays each term.
4. At least one test will be given to students after one topic is completed and the test should include one data-based question and one essay-type question. There will be at least 5 tests in each term.
5. At least one class activity will be carried out for each topic. The activities are of different variety including role-play, data interpretation, group discussion on issues and simulation games. There will be group presentation after the activity.

6. Form six students will do at least two field works.

7. L6 students will do newspaper cuttings on Hong Kong current development projects and a summary will be submitted every month.

8. A map reading exercise will be done every cycle.

VI. Evaluation

1. F.1 – F.3
   (a) 60% of students in each form pass in the form test
   (b) 60% of students can pass in the map-reading test
   (c) at least 60% of students reach the passing marks (10 marks) in their project

2. F.4 to U6
   (a) F.4 to F.5 – 60% of students can get 40 marks or above in the examination.
   (b) L6 and U6 – 70% of students can get 35 marks or above in the examination.
   (c) At least 60% of the F.4 and F.5 students reach the passing marks (50 marks) in their project works.
   (d) At least 70% of the L6 and U6 students reach the passing marks in their project works.

VII. Team members
Lee Wai Chu (Panel chairman) – teaching F.2, F.3, F.4 and Lower 6
Ng Sze Ling – teaching F.1, 2 and Upper 6
Wong Wai Lan – teaching F.1, and F.5

VIII. Budget

<table>
<thead>
<tr>
<th>Item</th>
<th>Estimated Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Travelling subsidy</td>
<td></td>
</tr>
<tr>
<td>F.4 &amp; F.5 (field study)</td>
